| <b>1. The Debian Project</b>                              | <b>1</b>  |
| 1.1 What Is Debian?                                       | 2         |
| 1.1.1 A Multi-Platform Operating System                   | 2         |
| 1.1.2 The Quality of Free Software                        | 4         |
| 1.1.3 The Legal Framework: A Non-Profit Organization      | 4         |
| 1.2 The Foundation Documents                              | 5         |
| 1.2.1 The Commitment towards Users                        | 5         |
| 1.2.2 The Debian Free Software Guidelines                 | 6         |
| 1.3 The Inner Workings of the Debian Project              | 9         |
| 1.3.1 The Debian Developers                               | 9         |
| 1.3.2 The Active Role of Users                            | 13        |
| <i>Reporting bugs</i>                                     | 14        |
| <i>Translation and documentation</i>                      | 15        |
| <i>Sending fixes</i>                                      | 15        |
| <i>Other ways of contributing</i>                         | 17        |
| 1.3.3 Teams and Sub-Projects                              | 17        |
| <i>Existing Debian Sub-Projects</i>                       | 18        |
| <i>Administrative Teams</i>                               | 19        |
| <i>Development Teams, Transversal Teams</i>               | 20        |
| 1.4 Follow Debian News                                    | 21        |
| 1.5 The Role of Distributions                             | 23        |
| 1.5.1 The Installer: <i>debian-installer</i>              | 23        |
| 1.5.2 The Software Library                                | 23        |
| 1.6 Lifecycle of a Release                                | 24        |
| 1.6.1 The <i>Experimental</i> Status                      | 24        |
| 1.6.2 The <i>Unstable</i> Status                          | 24        |
| 1.6.3 Migration to <i>Testing</i>                         | 26        |
| 1.6.4 The Promotion from <i>Testing</i> to <i>Stable</i>  | 27        |
| 1.6.5 The <i>Oldstable</i> and <i>Oldoldstable</i> Status | 30        |
| <b>2. Presenting the Case Study</b>                       | <b>33</b> |
| 2.1 Fast Growing IT Needs                                 | 34        |
| 2.2 Master Plan   | 34        |
| 2.3 Why a GNU/Linux Distribution?                         | 35        |
| 2.4 Why the Debian Distribution?                          | 37        |

|  |           |
|--|-----------|
| 2.4.1 Commercial and Community Driven Distributions . . . . .    | 37        |
| 2.5 Why Debian Buster? . . . . .                                 | 38        |
| <b>3. Analyzing the Existing Setup and Migrating</b> . . . . .   | <b>41</b> |
| 3.1 Coexistence in Heterogeneous Environments . . . . .          | 42        |
| 3.1.1 Integration with Windows Machines . . . . .                | 42        |
| 3.1.2 Integration with OS X machines . . . . .                   | 42        |
| 3.1.3 Integration with Other Linux/Unix Machines . . . . .       | 42        |
| 3.2 How To Migrate . . . . .                                     | 43        |
| 3.2.1 Survey and Identify Services . . . . .                     | 43        |
| <i>Network and Processes</i> . . . . .                           | 44        |
| 3.2.2 Backing up the Configuration . . . . .                     | 45        |
| 3.2.3 Taking Over an Existing Debian Server . . . . .            | 45        |
| 3.2.4 Installing Debian . . . . .                                | 46        |
| 3.2.5 Installing and Configuring the Selected Services . . . . . | 47        |
| <b>4. Installation</b> . . . . .                                 | <b>51</b> |
| 4.1 Installation Methods . . . . .                               | 52        |
| 4.1.1 Installing from a CD-ROM/DVD-ROM . . . . .                 | 52        |
| 4.1.2 Booting from a USB Key . . . . .                           | 53        |
| 4.1.3 Installing through Network Booting . . . . .               | 54        |
| 4.1.4 Other Installation Methods . . . . .                       | 54        |
| 4.2 Installing, Step by Step . . . . .                           | 54        |
| 4.2.1 Booting and Starting the Installer . . . . .               | 54        |
| 4.2.2 Selecting the language . . . . .                           | 56        |
| 4.2.3 Selecting the country . . . . .                            | 57        |
| 4.2.4 Selecting the keyboard layout . . . . .                    | 57        |
| 4.2.5 Detecting Hardware . . . . .                               | 58        |
| 4.2.6 Loading Components . . . . .                               | 58        |
| 4.2.7 Detecting Network Hardware . . . . .                       | 58        |
| 4.2.8 Configuring the Network . . . . .                          | 59        |
| 4.2.9 Administrator Password . . . . .                           | 59        |
| 4.2.10 Creating the First User . . . . .                         | 60        |
| 4.2.11 Configuring the Clock . . . . .                           | 61        |
| 4.2.12 Detecting Disks and Other Devices . . . . .               | 61        |
| 4.2.13 Starting the Partitioning Tool . . . . .                  | 61        |
| <i>Guided partitioning</i> . . . . .                             | 63        |
| <i>Manual Partitioning</i> . . . . .                             | 65        |
| <i>Configuring Multidisk Devices (Software RAID)</i> . . . . .   | 67        |
| <i>Configuring the Logical Volume Manager (LVM)</i> . . . . .    | 67        |
| <i>Setting Up Encrypted Partitions</i> . . . . .                 | 68        |
| 4.2.14 Installing the Base System . . . . .                      | 69        |
| 4.2.15 Configuring the Package Manager (apt) . . . . .           | 69        |
| 4.2.16 Debian Package Popularity Contest . . . . .               | 70        |
| 4.2.17 Selecting Packages for Installation . . . . .             | 71        |

|  |            |
|--|------------|
| 4.2.18 Installing the GRUB Bootloader . . . . .                    | 71         |
| 4.2.19 Finishing the Installation and Rebooting . . . . .          | 72         |
| 4.3 After the First Boot . . . . .                                 | 73         |
| 4.3.1 Installing Additional Software . . . . .                     | 73         |
| 4.3.2 Upgrading the System . . . . .                               | 74         |
| <b>5. Packaging System: Tools and Fundamental Principles</b>       | <b>77</b>  |
| 5.1 Structure of a Binary Package . . . . .                        | 78         |
| 5.2 Package Meta-Information . . . . .                             | 80         |
| 5.2.1 Description: the control File . . . . .                      | 80         |
| <i>Dependencies: the Depends Field</i> . . . . .                   | 81         |
| <i>Conflicts: the Conflicts field</i> . . . . .                    | 83         |
| <i>Incompatibilities: the Breaks Field</i> . . . . .               | 83         |
| <i>Provided Items: the Provides Field</i> . . . . .                | 83         |
| <i>Replacing Files: The Replaces Field</i> . . . . .               | 86         |
| 5.2.2 Configuration Scripts . . . . .                              | 86         |
| <i>Installation and Upgrade</i> . . . . .                          | 87         |
| <i>Package Removal</i> . . . . .                                   | 87         |
| 5.2.3 Checksums, List of Configuration Files . . . . .             | 89         |
| 5.3 Structure of a Source Package . . . . .                        | 90         |
| 5.3.1 Format . . . . .   | 90         |
| 5.3.2 Usage within Debian . . . . .                                | 93         |
| 5.4 Manipulating Packages with dpkg . . . . .                      | 94         |
| 5.4.1 Installing Packages . . . . .                                | 94         |
| 5.4.2 Package Removal . . . . .                                    | 96         |
| 5.4.3 Querying dpkg's Database and Inspecting .deb Files . . . . . | 96         |
| 5.4.4 dpkg's Log File . . . . .                                    | 101        |
| 5.4.5 Multi-Arch Support . . . . .                                 | 101        |
| <i>Enabling Multi-Arch</i> . . . . .                               | 101        |
| <i>Multi-Arch Related Changes</i> . . . . .                        | 102        |
| 5.5 Coexistence with Other Packaging Systems . . . . .             | 103        |
| <b>6. Maintenance and Updates: The APT Tools</b>                   | <b>107</b> |
| 6.1 Filling in the sources.list File . . . . .                     | 108        |
| 6.1.1 Syntax . . . . .   | 108        |
| 6.1.2 Repositories for <i>Stable</i> Users . . . . .               | 110        |
| <i>Security Updates</i> . . . . .                                  | 111        |
| <i>Stable Updates</i> . . . . .                                    | 111        |
| <i>Proposed Updates</i> . . . . .                                  | 112        |
| <i>Stable Backports</i> . . . . .                                  | 112        |
| 6.1.3 Repositories for <i>Testing/Unstable</i> Users . . . . .     | 112        |
| <i>The Experimental Repository</i> . . . . .                       | 113        |
| 6.1.4 Using Alternate Mirrors . . . . .                            | 114        |
| 6.1.5 Non-Official Resources: mentors.debian.net . . . . .         | 114        |
| 6.1.6 Caching Proxy for Debian Packages . . . . .                  | 115        |

|   |     |
|---|-----|
| 6.2 <b>aptitude, apt-get, and apt Commands</b>              | 116 |
| 6.2.1 Initialization  | 116 |
| 6.2.2 Installing and Removing                               | 117 |
| 6.2.3 System Upgrade  | 120 |
| 6.2.4 Configuration Options                                 | 120 |
| 6.2.5 Managing Package Priorities                           | 121 |
| 6.2.6 Working with Several Distributions                    | 124 |
| 6.2.7 Tracking Automatically Installed Packages             | 125 |
| 6.3 The <b>apt-cache</b> Command                            | 126 |
| 6.4 The <b>apt-file</b> Command                             | 128 |
| 6.5 Frontends: <b>aptitude, synaptic</b>                    | 128 |
| 6.5.1 <b>aptitude</b>                                       | 128 |
| <i>Managing Recommendations, Suggestions and Tasks</i>      | 130 |
| <i>Better Solver Algorithms</i>                             | 131 |
| 6.5.2 <b>synaptic</b>                                       | 131 |
| 6.6 Checking Package Authenticity                           | 132 |
| 6.7 Upgrading from One Stable Distribution to the Next      | 134 |
| 6.7.1 Recommended Procedure                                 | 134 |
| 6.7.2 Handling Problems after an Upgrade                    | 135 |
| 6.7.3 Cleaning Up after an Upgrade                          | 136 |
| <i>Packages removed from the Debian Archive</i>             | 137 |
| <i>Dummy and Transitional Packages</i>                      | 137 |
| <i>Old or Unused Configuration Files</i>                    | 137 |
| <i>Files not owned by any Package</i>                       | 138 |
| 6.8 Keeping a System Up to Date                             | 138 |
| 6.9 Automatic Upgrades                                      | 140 |
| 6.9.1 Configuring <b>dpkg</b>                               | 140 |
| 6.9.2 Configuring <b>APT</b>                                | 141 |
| 6.9.3 Configuring <b>debconf</b>                            | 141 |
| 6.9.4 Handling Command Line Interactions                    | 141 |

| 16.1 Upcoming Developments . . . . . | 466 |
| 16.2 Debian's Future . . . . .       | 466 |
| 16.3 Future of this Book . . . . .   | 467 |

## A. Derivative Distributions 469

|                                      |     |
|--------------------------------------|-----|
| A.1 Census and Cooperation . . . . . | 469 |
| A.2 Ubuntu . . . . .                 | 469 |
| A.3 Linux Mint . . . . .             | 470 |
| A.4 Knoppix . . . . .                | 471 |
| A.5 Aptosid and Siduction . . . . .  | 471 |
| A.6 Grml . . . . .                   | 472 |
| A.7 Tails . . . . .                  | 472 |
| A.8 Kali Linux . . . . .             | 472 |
| A.9 Devuan . . . . .                 | 472 |
| A.10 DoudouLinux . . . . .           | 472 |
| A.11 Raspbian . . . . .              | 473 |
| A.12 PureOS . . . . .                | 473 |
| A.13 SteamOS . . . . .               | 473 |
| A.14 And Many More . . . . .         | 473 |

## B. Short Remedial Course 475

|  |     |
|--|-----|
| B.1 Shell and Basic Commands . . . . .                         | 475 |
| B.1.1 Browsing the Directory Tree and Managing Files . . . . . | 475 |
| B.1.2 Displaying and Modifying Text Files . . . . .            | 476 |

|   |     |
|---|-----|
| B.1.3 Searching for Files and within Files . . . . .                      | 477 |
| B.1.4 Managing Processes . . . . .  | 477 |
| B.1.5 System Information: Memory, Disk Space, Identity . . . . .          | 477 |
| B.2 Organization of the Filesystem Hierarchy . . . . .                    | 478 |
| B.2.1 The Root Directory . . . . .  | 478 |
| B.2.2 The User's Home Directory . . . . .                                 | 479 |
| B.3 Inner Workings of a Computer: the Different Layers Involved . . . . . | 480 |
| B.3.1 The Deepest Layer: the Hardware . . . . .                           | 480 |
| B.3.2 The Starter: the BIOS or UEFI . . . . .                             | 481 |
| B.3.3 The Kernel . . . . .  | 482 |
| B.3.4 The User Space . . . . .  | 482 |
| B.4 Some Tasks Handled by the Kernel . . . . .                            | 482 |
| B.4.1 Driving the Hardware . . . . .                                      | 482 |
| B.4.2 Filesystems . . . . .   | 483 |
| B.4.3 Shared Functions . . . . .  | 484 |
| B.4.4 Managing Processes . . . . .  | 484 |
| B.4.5 Rights Management . . . . .   | 485 |
| B.5 The User Space . . . . .  | 485 |
| B.5.1 Process . . . . .   | 486 |
| B.5.2 Daemons . . . . .   | 486 |
| B.5.3 Inter-Process Communications . . . . .                              | 487 |
| B.5.4 Libraries . . . . .   | 488 |
