

Thermaltake CH00168 Core W&P Series Case

DO IT YOURSELF / ODD BRACKETS - KNOW-HOW

In general, to build ODD Brackets you need ...

- ◆ 1 Straight Aviation Snips to cut Anodized Aluminium

For example this:

<https://www.bricoman.it/it/cesoia-stanley-demoltp1-dritta-250-mm-10003298/>

- ◆ 1 Plate of Anodized Aluminium (in my case I used a plate of anodized aluminium for verandas)

For example this:

<https://www.bricoman.it/it/aletta-sopra-gronda-sv150-mm-t-moro-2-m-12091937/>

- ◆ 1 digital caliper to take measurements
- ◆ 1 Rigid Body to create the right angles of ODD "DIY" bracket with a hammer
- ◆ 1 self-tapping screw to create the holes of ODD "DIY" bracket with a hammer and a screwdriver
